Profile

Do you dream of using technology to change the world?
Join the Andela movement to ensure that while the digital revolution may have begun in Silicon Valley, its future will be written in Lagos, Nairobi, Kampala, Kigali, and cities across Africa.
THE ANDELA FELLOWSHIP
The Andela Fellowship is a full-time employment opportunity designed for talented and high-potential technologists to build their skills and experience on a global scale. We seek out exceptional people from a variety of backgrounds who are committed to unlocking their full potential.
Through four years of intensive learning and real work experience, you'll master the professional and technical skills you need to succeed as a software developer with the world's top engineering teams.
You bring a relentless desire to learn and level up. We provide access to resources, mentorship, and a community of passionate software developers to support you at every step of your journey.
Watch this video to learn about our values.
THE APPLICATION PROCESS
Stage 1: Online Application
Fill out the application form on this page.
Stage 2: Technical Assessment
Once you submit your application, you'll be directed to study the modules on our Home StudyCurriculum for software development and team skills. This is required to complete a technical assessment that will evaluate your knowledge of the content you've learned. No prior coding experience is required.
Stage 3: In-Person Interview
Based on your application and technical assessment, you may be invited to a panel of interviews made up of staff members and developers at an Andela office.
Stage 4: Attend a Bootcamp
Successful candidates are invited to participate in a two-week, simulated development sprint led by senior Andela developers. The two weeks is comprised of one week of home-based self-learning, and one week of product development on-site at an Andela campus. You'll be expected to learn independently as well as on a team to deliver a final project. We're looking for work ethic, passion, and teamwork.
Stage 5: Become an Andelan
The highest performing participants are accepted into Andela's four-year Fellowship Program. Over the course of four years, you'll be immersed in intensive learning alongside some of Africa's most brilliant minds. You'll amass real work experience as part of global engineering teams. You'll emerge a

professional who is capable of transforming the world through leadership and technology.

For inquiries, please read the Application FAQs and Home Study FAQs. If you still have unanswered questions, please send an email to kigali.apply@andela.com.

Apply today and see if you have what it takes!
